

HEALER'S HANDBOOK INDEX

By Michael J. Lincoln, Ph.D.

A

ABASIA (Inability to walk due to lack of coordination)
ABNORMALLY RAPID HEART-BEAT
ABSCESSSES (A large collection of pus that needs opening)
ACID REFLUX (Heartburn -- Burning distress behind the sternum, due to spasms of the esophagus or of the upper stomach, resulting in acid coming up)
ACQUIRED IMMUNO-DEFICIENCY SYNDROME (A.I.D.S)
ADDISON'S DISEASE (Under-active adrenals)
ADENOID PROBLEMS (Lymph nodes in the back of the nasal passages)
ADHESIVE CAPSULITIS (Joint interfaces become sticky)
ADRENAL DEPLETION
ADRENAL PROBLEMS
"AGENT ORANGE" POISONING (Dioxin)
AGRANULOCYTOSIS (Loss of white blood cells resulting in no defense against infection)
ALCOHOLISM
A.L.D. (Adreno-Leuko Dystrophy) [Loss of myelin sheaths in the brain in male children]
ALLERGIC SHOCK (Obstructed breathing, hives, plunging blood pressure -- it is life threatening)
ALLERGIES
ALVEOLA PROBLEMS (The air sacs in the lungs)
ALZHEIMER'S DISEASE (Loss of memory and mental functioning capacity)
AMBLYOPIA (Poor refraction, leading to dullness of visual acuity)
AMEBIASIS (Parasitic stomach disease)
AMNESIA; AMNESIC SYNDROME (Loss of memory)
ANAL PROBLEMS
ANDROGEN PROBLEMS (Male hormone)
ANEMIA (Shortage of red blood cells)
ANEURISM (Bulging blood vessel in the brain)
ANGINA PECTORIS (Severe attacks of pain over the heart due to oxygen deprivation)
ANOREXIA (Self-starvation)
ANTHRAX (Severe skin eruptions and boils. Caught from cattle)
APHASIA (Inability to form words; inability to speak)
APNEA (Interruptions in breathing)
APPENDICITIS
ARM PARALYSIS

ARRHYTHMIA (Heart rate fluctuations)
ARTERIOSCLEROSIS (Hardening and fat-lining of the arteries)
ARTERIOSCLEROTIC DEMENTIA (Progressive but “patchy” loss of mental functions)
ARTERY PROBLEMS
ARTHRITIS (Inflamed, painful and stiff joints)
ASBESTOS POISONING (Mesothelioma)
ASPHYXIATING ATTACKS (Sudden suffocations)
ASTHMA
ATHETOSIS (Repetitive involuntary movements)
AUTO-IMMUNE DISORDER (Immune system attacks their own body in an over-reactive manner)
AVIAN FLU (“BIRD FLU”)

B

BACK PROBLEMS
BALANCE PROBLEMS
BELL’S PALSYP (Facial paralysis)
BERYLLIUM POISONING
BILE IN THE BLOOD (Liver secretion)
BLADDER PROBLEMS
BLANCHING
BLEEDING
BLINDNESS
“BLOATED” (Abdominal distention)
“BLOATED” (Body-wide water-retention)
BLOOD CLOTS
BLOOD POISONING
BLOOD PRESSURE -- HIGH
BLOOD PRESSURE -- LOW
BLOOD PROBLEMS
BLURRED VISION
BOILS
BONE PROBLEMS
BOTULISM (The most dangerous form of bacterial food poisoning)
BOWEL PROBLEMS
“BRAIN FOG” (Clouded thinking, memory problems, confusion, disorientation, fatigue, etc.)
BRAIN PROBLEMS
BRAIN TUMOR
BREAST PROBLEMS
“BRITTLE BONES” SYNDROME (Extremely vulnerable to breakage)
BROKEN BLOOD VESSELS
“BROKEN HEART SYNDROME” (Stress cardiomyopathy) [Pseudo-heart attack] (Much more frequent in women, particularly older women)
BRONCHIAL PROBLEMS; BRONCHIAL SPASMS
BUBONIC PLAGUE (Swollen lymph glands, severe fever and delirium)
BULIMIA (Compulsive food bingeing and then vomiting)
BURSITIS (Inflammation of the joints)

C

CALCIFICATION (Deposits of calcium in the body)

CANCER

CANDIDA (Systemic yeast infection)

CANKER SORES

CAPILLARY PROBLEMS

CARBUNKLE (Cluster of boils)

CARDIAC ARREST (Heart-stoppage -- sudden)

CARDIO-VASCULAR PROBLEMS

CARPAL-TUNNEL SYNDROME (Painful nerve pain, numbing, tingling/burning in the hands/wrists, and wrist-weakening, due to inflammation of the nerves in the wrist)

CATALEPSY (Unable to move muscles)

CATARACTS (Clouding of the eye lens)

CATARRH OF THE EAR (Inflammation of the mucous membrane and the hyper-section of the glands in the area)

CELIAC DISEASE (A genetically influenced allergy ailment whereby the inside lining of the small intestine is damaged by gluten intake, often leading to arthritis, fibromyalgia, multiple sclerosis, kidney disease, lupus, hypothyroidism, osteoporosis, epilepsy, psychiatric problems, brain disorders, attention deficit and other learning disorders, and over 130 other severe disorders.)

CELLULITIS (Inflammation under the skin)

CENTRAL NERVOUS SYSTEM (“C.N.S.”) PROBLEMS

“CEREBRAL ALLERGY” (Loss of brain functions)

CEREBRAL PALSY (Impaired functioning or paralysis due to congenital nervous system problems)

CERVIX PROBLEMS

CESSATION OF OVULATION (Premature)

CHAMEROID (Painful dime-sized ulcers on the penis or clitoris)

CHARLES BONNET SYNDROME (C.B.S.) [Non-psychotic hallucinations caused by impaired vision sensory deprivation effects]

CHEMICAL POISONING

“CHICKEN POX”

“CHILBLAINS” (Painful swelling of fingers and toes caused by extreme cold)

CHLOASMA (Brown patches on the skin, not uncommon in pregnant women)

CHOLERA (Intestinal disease -- often fatal)

CHOLESTEROL PROBLEMS

CHOREA (Involuntary movements due to central nervous system disease)

CHRONIC DISEASE

CHRONIC FATIGUE SYNDROME; CHRONIC FATIGUE IMMUNE DYSFUNCTION SYNDROME; C.F.I.D.S (Exhaustion and irritability that can lead to gland problems, meningitis, and immune system breakdown)

CHRONIC OBSTRUCTIVE PULMINARY DISEASE (C.O.P.D) [Blockage of alveoli in the lungs]

CHRONIC REVERSED POLARITY (Of the body's magnetic field, resulting in cognition problems, distractibility, inattention, impulsivity, hyperactivity, etc.)

CIRCULATION PROBLEMS

“CLUSTER HEADACHES” (They occur in clusters)

COLD EXTREMITIES -- CHRONIC

“COLD SORES” (Virus-caused blister(s) inside or outside the mouth)

COLIC
COLLAPSED LUNG
COLON PROBLEMS (The “garbage disposal” of the digestive system)
COMA
CONCUSSION (Stunned, dizziness, confusion, unconsciousness)
CONDYLOMATA (Non-contagious herpes -- viral polyps on the genitals)
CONGESTION
CONSTIPATION -- CHRONIC
CONSTRICTIONS (Limitations on movement possibilities)
CONTACT DERMATITIS (Rashes arising from coming in contact with irritants)
CONVERSION DISORDER (Odd physical symptoms like hysterical blindness and glove anesthesia)
CORONARY THROMBOSIS (Clots in heart blood vessels)
CORTISOL PROBLEMS (Adrenal hormone)
COUVADE (The expectant father experiences pregnancy side effects, such as nausea, mood swings, weight gain and bloating) [It is French for “to hatch” or “to brood”]
COXSACKIE VIRUS (Intense tension and pain in the upper shoulders and lower neck, along with flu symptoms)
“CRABS” (Venereal disease)
CREUTZFELDT-JAKOB DISEASE (Virus-caused deterioration of the brain)
“CROUP” (Childhood cough and difficulty breathing)
CRYING -- EXCESSIVE OR CHRONIC
CUMULATIVE TRAUMA DISORDER (Job-related)
CYSTIC FIBROSIS (Fiber in the internal organs, particularly in the form of sticky mucous in the lungs)
CYSTS (Fluid-filled sacs in their body)

D

DEAFNESS
DEGENERATION OF THE SPINAL CORD AND MUSCLES; DEGENERATIVE DISORDERS
DEGENERATIVE JOINT DISORDER (DJD) [Arthritis-like]
DELIRIUM (Loss of reality contact to the accompaniment of great agitation)
DELIRIUM TREMENS (“D.T.’s” -- Alcohol withdrawal symptoms of anxiety, sweating, hallucinations, trembling, etc.)
DEMENCIA (Loss of mental functions)
DEMENCIA DUE TO H.I.V. VIRUS (Deteriorating and slowing of mental functions)
DENGUE (Yellow fever-like tropical disease carried by mosquito)
DERMATITIS (Skin inflammation)
DEVIATED SEPTUM (The cartilage divider between the nostrils)
DHEA PROBLEMS (Dehydroepiandrosterone) [Precursor or pro-hormone that triggers, buffers, interacts with, and regulates other hormones. It is a key chemical for the life process.]
DIABETES – TYPE I (Pancreatic problems and insufficient insulin production)
DIABETES -- TYPE II (Elevated insulin and insulin-resistance, with elevated glucose)
DIAPHRAGM PROBLEMS (Breathing difficulties, pain on breathing, etc.)
DIGESTIVE SYSTEM PROBLEMS
DIPHTHERIA (Swollen nose and throat -- often occurring in childhood)
DISCOLORATION OF THE SKIN (Due to blood seepage under the surface)

DISSEMINATED SCLEROSIS (Patches of hard tissue throughout the central nervous system)

DISRUPTION OF MOTION

“DIZZINESS”

“DROP-FOOT” (Unable to raise their foot, due to paralysis of the calf muscles)

“DROPSY” (Fluid in the abdomen)

DYSENTERY -- AMOEBIC (Severe diarrhea caused by amoeba)

DYSENTERY -- BACILLARY (Severe diarrhea caused by bacteria)

DYSKINESIA (Uncoordinated involuntary movements)

DYSLEXIA (Inability to read -- inability to perceive written material correctly)

DYSTONIA (Slow, repetitive, sustained muscle contractions that often lead to “freezing” in the middle of an action via twisting, turning and torsion movements. It is the result of genetic problems in most cases, though some have had lack of oxygen at birth or later in life.)

E

EAR PROBLEMS

EATING DISORDERS

“E-BALL VAPOR” POISONING

ECLAMPSIA (Internal poisoning and possibly convulsions late in pregnancy)

E. COLI [Escherichia Coli] (Bacteria from drinking water producing inflammation of the stomach and intestinal lining that is potentially lethal)

ECZEMA (Itchy rashes on skin)

EDEMA (Body-wide water retention)

ELEPHANTIASIS (Severe swelling of extremities and genitals, with skin-thickening)

EMBOLISM (Floating blood clot in their circulation system)

EMPHYSEMA (Degeneration of the lungs)

ENCEPHALITIS (Inflammation of the brain)

ENDOCRINE SYSTEM PROBLEMS

ENDOMETRIOSIS; ENDOMETRITIS (Inflammation of the womb lining)

ENTERITIS (Inflammation of the intestinal tract)

ENVIRONMENTAL ALLERGY (Allergic to just about everything)

EPILEPSY

EPSTEIN-BARR VIRUS (Continuous exhaustion)

ESOPHOGUS PROBLEMS

ESTROGEN PROBLEMS (Female hormone, particularly in regard to the sexual system)

EUSTACHIAN TUBE PROBLEMS

EXHAUSTION

EYE PROBLEMS

F

FACIAL “TIC” (Involuntary movements of the facial muscles)

FALLOPIAN TUBE PROBLEMS (Particularly blocking)

“FALSE PREGNANCY”

FATIGUE

FATTY TUMORS (Fatty deposits and growths)

“FEMALE PROBLEMS”

FEMALE SEXUAL AROUSAL DISORDER

FETAL ALCOHOL SYNDROME (Severe birth defects due to alcohol ingestion during pregnancy)

FEVER

FIBRILLATION (Abnormally rapid heartbeat)

FIBROIDS (Benign tumors and cysts in the womb)

FIBROMYALGIA

FIBROUS GROWTHS

“FIFTH SYNDROME” VIRUS (Dry red rashes. Highly contagious)

FISTULA (Hole from surface to an inner organ)

“FLESH-EATING VIRUS;” “FLESH-EATING BACTERIA”

“FLOATERS” (Free-falling dark bits in the ocular fluid)

FLU; INFLUENZA (Virus infection)

FLUCTUATING ILLNESS (It comes and it goes)

FRACTURED SKULL

FREQUENT ILLNESSES

“FROST BITE” Damage to extremities caused by freezing)

“FROZEN SHOULDERS”

FUNGUS

G

GALL BLADDER PROBLEMS

GANGRENE

GIARDIA (Toxic parasite that induces nausea, vomiting and diarrhea)

“GAS;” “GAS PAINS”

GASTRIC BY-PASS (Stapling off part of the stomach to lower food intake)

GENITAL PROBLEMS, FEMALE

GENITAL PROBLEMS, MALE

GENITAL “WARTS”

G.E.R.D. (Gastro-Esophageal Reflex Disease [Heartburn] -- Burning distress behind the sternum, due to spasms of the esophagus or of the upper stomach, resulting in acid coming up)

GERMAN MEASLES (Mild fever and skin rash)

GIARDIA LAMBIA (Parasitic protozoa that lodges in the intestinal lining, producing immune disorder-like symptoms)

“GLANDERS” (Swollen mucous membranes in nostrils and jaw. It comes from horses.)

GLANDULAR PROBLEMS

GLAUCOMA (Fluid pressure increase and the resulting hardening of the eyeball)

GLUCOSE SENSITIVITY (Abnormal immune system reaction to gluten that leads to things like asthma, auto-immune disease, cancer, chronic fatigue syndrome, dementia, diabetes type I, heart disease, hepatitis, kidney disease, liver disease, psychiatric problems, thyroid diseases, ulcerative colitis, vitiligo and over 170 other serious disorders)

“GOITER” (Enlarged thyroid gland)

GONORRHEA

GOUT (Uric acid retention, resulting in swollen hands and feet and/or sharp pains in the legs, due to uremic poisoning)

GRANULOCYTOPENIA (Reduced defensive white blood cells)

GRAVE’S DISEASE (Hyper-thyroidism)

“GULF WAR SYNDROME” (Fatigue, allergies, asthma, etc., due to chemical, radiation and extra low frequency (ELF) exposure)

H

“HANTA-VIRUS” (Quickly precipitated lethal respiratory failure) [Transmitted by fleas]

HARDENING OF THE ARTERIES

HAY FEVER

HEADACHES

HEAD TRAUMA

HEART ATTACK

HEART-BEAT SLOWED

“HEARTBURN” (Burning distress behind the sternum, due to spasms of the esophagus or of the upper stomach, resulting in acid coming up)

HEART BY-PASS OPERATION

“HEART FAILURE”

“HEART MURMUR”

HEART PROBLEMS

HEART VALVE PROBLEMS

“HEAT PROSTRATION” (Complete overwhelm by high temperature environments)

“HEAT-STROKE” (Dizziness, nausea, spots before their eyes)

HEEL SPUR (Calcification growths on bottom of the heels and at the Achilles heels)

HEMOPHILIA (Defective blood-clotting)

HEMORRHAGING (Uncontrolled outpouring of blood)

HEMORRHOIDS (Enlarged protruding and painful veins around the anus)

HEPATITIS (Inflammation of the liver)

HERNIA (Internal organ protruding through the muscles)

HERNIATED DISC (Torn-apart platelet between the vertebrae)

HERPES; HERPES GENITALIS (Viral blisters on the sexual area)

HERPES SIMPLEX; HERPES LABIALIS (Blister clusters on the mouth)

HIATAL HERNIA (Internal organ protruding above the stomach, producing excess bile, sour stomach, and much belching)

H.I.V. POSITIVE (Human Immuno-deficiency Virus)

“HIVES” (Red and itchy small eruptions on the skin)

HODGKIN’S DISEASE (Enlargement of lymph glands and spleen -- cancerous)

“HOOF AND MOUTH” DISEASE (Severe skin eruptions and boils, caught from cattle)

“HOOK WORM” (Small intestinal parasite)

HORMONAL PROBLEMS

HOT EXTREMITIES, CHRONIC

“HPV” (HUMAN PAPILLOMA VIRUS) [Genital warts, often sexually transmitted.]

HUNTINGTON’S CHOREA (Involuntary muscle spasms, constant tremors, mental deterioration)

HYPER-GLYCEMIA (Excess blood sugar)

HYPER-PARATHYROIDISM (Excessive calcium secretion, leading to passive reactivity and/or

an amotivational syndrome)

HYPER-SOMNIA (Constant sleepiness or sleep attacks)

HYPER-TENSION (High blood pressure)

HYPER-THYROIDISM (Over-active thyroid gland)

HYPER-VENTILATION (Excessive inhalation)

HYPO-GLYCEMIA (Insufficient blood sugar)

HYPOTHALAMUS PROBLEMS (The governing gland for the pituitary and pineal glands -- the endocrine gland/orchestrators)

HYPO-TENSION (Low blood pressure)
HYPO-THYMUS PROBLEMS (Under-activity of the thymus gland)
HYPO-THYROIDISM (Insufficient secretion of the life-sustaining growth hormone)
HYSTERECTOMY (Removal of the uterus)

I

IATROGENIC ILLNESS (Caused by treatment procedures -- e.g., staph infections, antibiotic reactions, surgical problems, medication side effects, chemotherapy effects, drug side effects, etc.)
ILEITIS (Inflammation of the opening to the large intestine)
ILEOCECAL VALVE PROBLEMS (Leading to back-flow of fecal matter from the large to small intestines)
IMMUNE SYSTEM PROBLEMS
IMPETIGO (Contagious virus-based skin lesions)
IMPOTENCE
INABILITY TO ABSORB NUTRIENTS
INABILITY TO COMPREHEND SPEECH
INABILITY TO CRY (Emotional)
INABILITY TO CRY (Genetic)
INABILITY TO DISCERN EMOTIONS
INABILITY TO FORM BLOOD CLOTS
INABILITY TO FORM WORDS
INABILITY TO PERCEIVE THINGS
INABILITY TO PHONETICALLY SOUND OUT WORDS
INABILITY TO PRODUCE MILK
INABILITY TO RECOGNIZE FACES
INABILITY TO SLEEP
INABILITY TO SMELL
INABILITY TO SNEEZE
INABILITY TO SPEAK; INABILITY TO TALK
INABILITY TO SWALLOW
INABILITY TO TASTE
INABILITY TO URINATE
INABILITY TO WALK
INCURABLE DISEASES
INFECTION
INFERTILITY
INFLAMMATION
INFLAMMATION OF THE ABDOMINAL CAVITY LINING
INFLAMMATION OF THE BONES
INFLAMMATION OF THE BRAIN
INFLAMMATION OF THE CHEEK(S)
INFLAMMATION OF THE MAMMARY GLAND(S)
INFLAMMATION OF THE MASTOIDS (The bone behind the ear)
INFLAMMATION OF THE PALATE
INFLAMMATION OF THE RETINA
INFLAMMATION OF THE STOMACH LINING
INFLAMMATION OF THE TONSILS
INHIBITED ORGASM -- FEMALE

INHIBITED ORGASM -- MALE

INNER EAR PROBLEMS

INSANITY

INSOMNIA

INTERMITTENT BLEEDING (“Irregular Menstruation”)

INTERSEX (Born with both gender characteristics, usually with a surgical decision early on. It frequently leaves the person very confused about gender identity issues.)

INTESTINAL CRAMPS

INTESTINAL FLU

“INTUITION HEADACHES” (That come on whenever they exercise their intuition)

INVOLUNTARY TREMOR

“IRRITABLE STOMACH SYNDROME” (Pains, upsets, nausea, etc.)

ITCHING

resulting in ease of bleeding to death.]

I.T.P. (Interstitial Thrombocytopenic Purpura) [Failure of bone marrow to make blood platelets,

J

JAUNDICE (Bile in the blood, leading to yellowish taint to the skin)

JOINT PROBLEMS

“JUNGLE ROT” (Severe fungus infection)

K

KAPOSY’S SARCOMA (Large red spots all over the body usually arising from sexual promiscuity)

KIDNEY PROBLEMS (Inability to cleanse the blood of waste products)

KLINFELTER SYNDROME (XXY genetic structure that generates language-related learning disabilities, with speech delay, extreme shyness, and small genitalia in some cases.)

L

LACTIC ACIDOSIS (Burning sugar rather than oxygen, resulting in dissolving of the lungs by the resulting acids)

LACTOSE INTOLERANCE (Suppressed generation of the enzyme necessary to break down the lactose in milk)

LADA (Latent Autoimmune Diabetes in Adults)

LARGE INTESTINE PROBLEMS (Assimilates nutrients from the food intake)

LARYNGITIS

LARYNX PROBLEMS

“LAZY EYE(S)” (Poor ciliary muscle control, resulting in their eye(s) moving around on their own accord)

LEAD POISONING (Forebrain, left hemisphere and midbrain damage)

LEGIONNAIRES DISEASE (Sudden virus-caused failure of the immune system)

LEISHMANIASIS (Debilitating disorder that can result in severe facial disfiguration)

LEPROSY (Bacterial disease leading to slow swelling, disfiguration, disintegration, and loss of sensation)

LEUKEMIA (Excessive white cells leading to self-attack and self-destruction)

“LISPING”

LIVER PROBLEMS

“LONG QT” SYNDROME (Sudden severe cardiac arrhythmia, possibly genetic)

LOSS OF ABSTRACT THINKING FUNCTION

LOSS OF BODY AND HEAD HAIR

LOSS OF COORDINATION

LOSS OF EYEBROWS AND/OR EYELASHES

LOSS OF MENTAL FUNCTIONS

LOSS OF THE SENSE OF TOUCH

“LOU GHERIG’S DISEASE” (Degeneration of the spinal cord and the muscles)

“LOW MILK SYNDROME” (Malnutrition-caused strokes, blood clots and other oxygen deprivation-caused brain damage in the infant, due to low breast milk.)

LOW PLATELETS (Difficulty clotting blood)

LOW SPERM COUNT

LOW WHITE BLOOD CELL COUNT

“LUMBAGO” (Backache at the rear of the groin region)

LUNG PROBLEMS

LUPUS

LYME DISEASE (Tick-transmitted failure of the immune system)

LYMPHOMA (Cancer of the lymph system)

LYMPH SYSTEM PROBLEMS

M

MALARIA (Intense fever caused by parasites)

MALE ERECTILE DISORDER

“MALE MENOPAUSE” (Post-retirement depression)

MALNUTRITION

“MARASMUS” (Protein and carbohydrate deprivation reaction and/or a severe maternal deprivation result -- “failure to thrive”)

“MARSH FEVER” (See **MALARIA**)

MASTOIDITIS (Inflammation of the bone behind the ear -- usually in children)

MELANOMA (Skin cancer)

MENIERE’S DISEASE (Affecting the organs of balance, leading to violent dizziness, severe nausea and intense vomiting.)

MENINGITIS (Inflammation of the lining of the brain and the spinal cord)

MENOPAUSE PROBLEMS

MENSTRUAL PROBLEMS

MERCURY POISONING (Nervous system problems, bone damage)

“METH MOUTH” (Greyish brown, twisting, rotting, falling out teeth caused by methamphetamine abuse. Due to dry mouth lack of saliva to combat bacteria, along with super-thirst leading to soda pop abuse.)

MIGRAINE HEADACHE

“MISCARRIAGE” (Spontaneous abortion)

MISSING PULSE; NO PULSE DETECTABLE (AT TIMES)

MITOCHONDRIAL MYOPATHY (Progressive muscle disorder that deprives the body of energy)

MITTLESCHMERTZ (Literally: “middle pain” -- pain at ovulation)

MONILIASIS (Fungus infection of the mucous membranes mouth, throat and vagina) (Candidiasis)

“MONITOR FATIGUE” (Computer screen viewing disorder)

MONKEY POX (Fever, headache, cough, painful rash traveling all over the body)

MONONUCLEOSIS; MONO (Glandular fever)

MOTION SICKNESS

MOUNTAIN SICKNESS (Due to low air pressure)

MRSA (Methicillin-Resistant Staphylococcus Aureus – a severe viral infection)

MULTIPLE CHEMICAL SENSITIVITY (Fatigue, allergies, asthma, etc., due to chemical, radiation and extra low frequency exposure)

MULTIPLE MYELOMA (Cancer of the plasma cells in bone marrow)

MULTIPLE SCLEROSIS (Loss of nerve endings, resulting in weakness and incoordination, often leading to immobilization ultimately)

MUMPS (Inflammation of the large salivary glands)

MUSCULAR DYSTROPHY (Progressive wasting away of the muscles)

MUSHROOM POISONING

MYALGIC ENCEPHALOMYELITIS; “M.E.” (Exhaustion and irritability that can lead to gland problems, meningitis and immune system breakdown)

MYASTHENIA GRAVIS (Uncontrollably drooping eyelids)

MYOMA (Benign uterine fibroid tumors in menopause)

N

NARCOLEPSY (Uncontrollable urge to go to sleep)

NAUSEA

“NEAR DEATH EXPERIENCE” (“N.D.E.”)

NECK PROBLEMS

NECROSIS (Death of part of the body, due to lack of blood supply)

NEMATODES (Parasites affecting the nervous system causing constipation, moodiness, etc.)

NERVE PROBLEMS

“NERVOUS BREAKDOWN;” “NERVOUS PROSTRATION”

NEUROPATHY (Numbness in the extremities, especially the fingers and toes)

“NIGHT BLINDNESS;” “NIGHT MYOPIA”

NILE VIRUS; WEST NILE VIRUS (Fever, dizziness, lightheadedness, gastro-intestinal problems, muscle ache, headache and confusion for the 80% mild cases. Disorientation, convulsions, vision loss, neurological damage, coma and perhaps death for the 20% serious cases.)

“NODULES” (Small lumps, bumps or swellings)

NOSEBLEEDS

NUMBNESS

O

OBESITY; OVERWEIGHT

OSTEO-MALACIA (Softening of the bones)

OSTEO-MYELITIS (Inflammation of the bones)

OSTEO-POROSIS (Porousness of the bones)
OVARY PROBLEMS
“OVER-ACTIVE” ADRENALS
OXYGEN DEPRIVATION -- USUALLY DURING BIRTH

P

“PACE-MAKER” (Heart-stimulator -- having to have one)
PAGET’S DISEASE (Thickened bones)
PAIN
PAIN AT OVULATION
PAIN BETWEEN THE SHOULDER BLADES
PAINFUL BOWEL MOVEMENTS
PAINFUL INTERCOURSE
PAINFUL MENSTRUATION
PAINFUL URINATION
PAIN IN THE ABDOMEN
PAIN IN THE JOINTS
PAIN IN THE MUSCLES
PAIN IN THE RIBS
PAIN ON MOVEMENT
PAIN TOLERANCE -- HIGH
PAIN TOLERANCE -- LOW
PALLEGRA (Niacin deficiency -- skin eruptions, gastrointestinal disturbances. It can lead to nervous disorders and dementia) – (Also Spelled Pellagra)
PALSY (Involuntary tremor with paralysis)
PANCREAS PROBLEMS
PANIC ATTACKS; PANIC DISORDER
PARALYSIS
PARALYSIS OF THE DIAPHRAM (Iron lung situation)
PARASITES; PARASITIC WORMS
PARASYMPATHETIC NERVOUS SYSTEM PROBLEMS
PARATHYROID PROBLEMS
PAREISIS (Paralysis due to brain disease, usually syphilis)
PARKINSON’S DISEASE (Progressive palsy)
“PARROT FEVER” (Lung disease with fever)
PENIS PROBLEMS
PEPTIC ULCER (Lesion in the upper digestive tract caused by stomach acid)
PERICARDIUM PROBLEMS (The lining around heart)
PERINEUM PROBLEMS (The area between the anus and the genitals)
PERIPHERAL NERVE FUNCTIONING IMPAIRMENT
PERITONEUM PROBLEMS (Abdominal wall lining)
PERNICIOUS ANEMIA (Gradual reduction of red cells, leading to weakness, nervous system problems and digestive disorders)
“PETITE MAL” (Small seizures)
“PHANTOM LIMB” (Sensed presence of an absent limb)
PHLEBITIS (Potentially lethal floating blood clot in the blood vessels)
PICK’S DISEASE (Degenerative brain disease affecting the frontal and temporal lobes)
“PINCHED NERVE”

PINEAL GLAND PROBLEMS (Small “master gland” above the roof of the mouth)
“PIN WORMS” (Rectal parasites)
PITUITARY GLAND PROBLEMS (The “conductor gland” -- as in an orchestra)
PLACENTA PROBLEMS
PLANTAR WARTS (Painful warts on the bottoms of the feet)
PLATELETS, LOW (Difficulty clotting blood)
PLEURISY (Inflammation of the lung lining)
PHILTRUM PROBLEMS (The indented area below the nose in the center of the upper lip)
“P.M.S.” (Pre-Menstrual Syndrome); “P.M.T.” (Pre-Menstrual Tension)
PNEUMOCOCCUS (Airborne lethal lung disease)
PNEUMONIA (Inflammation of the lungs)
POLIO; POLIOMYELITIS (Paralysis of the body -- usually the limbs, but it can go to the iron lung level)
POLYCYSTIC OVARIAN SYNDROME (PCOS) (Irregular periods, male pattern baldness, depression, infertility, facial hair, acne, weight gain)
POLYPS (Cylindrical growths)
“POST-NASAL DRIP” (Sinus infection)
POST-PARTUM DEPRESSION (After giving birth)
PREMATURE MENOPAUSE
“PRICKLY HEAT” (Fever-induced blisters -- usually in infancy)
PROGERIA (Grossly premature aging -- they die with all the characteristic appearances and limitations of an extremely advanced age person by the age of 6 to 10.)
PROGESTERONE PROBLEMS (Hormone that prepares the uterus for the reception and development of the fertilized ovum)
PROLAPSE (Displacement or protrusion of an organ, such as the vagina, the prostate, the bladder, or the heart)
PROLAPSED HEART VALVE (Protruding into the heart chamber, leading to back-logged blood, pain, skipped beats and shortness of breath)
PROSTATE PROBLEMS
PROSTRATION (Exhaustion and collapse)
PSORIASIS (Scaly red patches on the skin)
PSYCHOMOTOR EPISODES (“Non-present”/“automatic pilot” episodes. It is a form of seizure)
“PUFFINESS” (Body-wide water retention)

Q

“QUINCY” (Inflammation of tonsils)

R

“RABBIT FEVER” (Fever, ache, inflamed lymph glands)
“RABIES”
RADIATION SICKNESS
“RAT BITE FEVER” (Rash, fever, muscle pain)
RAYNAUD’S DISEASE (Chronically cold extremities)
RECTOCELE (Prolapse in the rectal/vaginal wall)
REFERRED PAIN

REFLEX SYMPATHETIC DYSTROPHY (Progressive nerve disorder that in its final stages involves such extreme pain in the hands and feet due to involuntary chronic clenching or cramping that suicide is a not uncommon outcome.)

REFLUX (Regurgitation followed by choking on food that went down the wind pipe)

RELAPSING FEVER (Alternates with non-fever)

REPRODUCTIVE ORGAN PROBLEMS

RESPIRATORY PROBLEMS

“RESTLESS LEG SYNDROME” (Jerking movements of the legs during sleep)

“RETCHING” (Intense regurgitation)

RETROGRADE AMNESIA (Loss of memory of immediately preceding events)

“RETRO-VIRUS” (H.I.V.- like, it interacts with other diseases and bodily locations)

RHEUMATIC FEVER (Bacterial allergic reaction that causes swelling in the skin, joints and heart)

RHEUMATIC HEART (Swelling)

RHEUMATISM (Inflammation and pain in the muscles and/or joints)

RHEUMATOID ARTHRITIS (Connective tissue in the joints attacked by the immune system.)

RICKETS (Softening and bending of the bones, due to lack of Vitamin D)

RIGHT/LEFT SPLIT IN THEIR BODY

RINGING IN THE EARS (Mild)

“RINGWORM” (Contagious fungus-based skin eruptions of a circular shape)

RITTER’S DISEASE (Severe skin inflammation in infants)

ROCKY MOUNTAIN SPOTTED FEVER (Red eruptions, fever, pains in the bones and muscles)

ROSACEA (Red and rough blotches on the cheeks, nose and lower face -- much more common in males)

ROTATOR CUFF TENDONITIS (A tearing and swelling of the muscles and tendons that hold the upper area in the shoulder joint)

RUBELLA (German measles)

RUMINATION DISORDER OF INFANCY (Repeated regurgitation and re-swallowing their food)

RUPTURE (Tearing apart of muscle wall, leading to a hernia -- a protruding organ)

RUPTURED DISC (Torn-apart plate-like structure between the spinal vertebrae)

REYE’S SYNDROME (Severe endangerment or death of a child or infant, due to giving them aspirin before age five. The dynamics refer to those of the child, unless otherwise indicated.)

S

SACROILIAC PROBLEMS (Juncture of the hip bone and the lower spine)

SALMONELLA (Bacterial disorder causing dehydration, diarrhea, nausea, headache, and other symptoms to a severe and potentially lethal degree.)

S.A.R.S. (Sudden Acute Respiratory Syndrome)

SCARLET FEVER (Chills, high fever, sore throat and skin rash)

SCIATICA (Nerve pains in the hips and thighs, due to prolapsed disc or to a “pinched nerve” in the lower spine)

SCLEROSIS (Inflammation and hardening of connective tissue)

SCURVY (Bleeding, swelling and weakness due to vitamin C deficiency)

SEBACEOUS CYST (Infected oil gland)

SEIZURES

SENILITY

SENSORY-MOTOR INTEGRATION SYNDROME (In infancy or childhood, usually)

SEPSIS (Runaway infection due to the body's over-reaction to the poisons bacteria generate. It's often fatal.)

SHIGELLOSIS ("The trots," fever, vomiting, cramps)

"SHINGLES" (Painful viral infection and blisters along the nerves)

"SHOCK REACTION"

SHORTNESS OF BREATH

SICKLE CELL ANEMIA (Clogging of the arteries, coupled with severe joint pains)

"S.I.D.S." (Sudden Infant Death Syndrome)

SINUS PROBLEMS

SKELETON PROBLEMS

SKIN PROBLEMS

SLEEP APNEA (Interruptions of breathing while sleeping)

SLEEP-DEPRIVATION SYNDROME (Irritability, confusion, fight-flight reaction)

"SLEEPING SICKNESS" (Bacterially-precipitated, compulsive sleep state, often lethal)

SLOWED HEART RATE

SMALL INTESTINE PROBLEMS (First wave assimilation of nutrients)

SMALL POX (Fever, pain, vomiting, boils that leave permanent indentation scars)

SOFTENING OF THE BONES

"SOLAR FEVER" (Infectious fever)

SOLAR PLEXUS PROBLEMS (Upper abdomen)

"SPASTIC COLON" (Sudden uncontrollable diarrhea attacks)

"SPASTIC" DUODENUM (Convulsive closings of the start of the small intestine)

SPHINCTER PROBLEMS

SPINAL CORD PROBLEMS

SPINAL DISC PROBLEMS

SPINE PROBLEMS

SPLEEN PROBLEMS

SPRUE (Inability to absorb nutrients)

STAPH INFECTION; STAPHYLOCOCCUS (Picked up in hospitals, clinics, etc.)

"STEALTH VIRUS" (A parasite that comes in below the threshold of the immune system like a stealth bomber flying under the radar. It leads to exhaustion and irritability that can end up in glandular problems, meningitis, and immune system breakdown.)

STERILITY

STERNUM PROBLEMS

STIGMATA (Spontaneous fluid or blood flow from hands, feet, the side, etc.)

STOMACH PROBLEMS (Assimilation preparation)

STREP THROAT

"STROKE" (Decreased blood flow to part of the brain usually, due to a burst blood vessel in the brain)

"ST. VITUS' DANCE" (Involuntary muscular actions)

SWALLOWING DIFFICULTY

SWELLING

SYMPATHETIC NERVOUS SYSTEM PROBLEMS

"SYNDROME X" ("Spare tire," high cholesterol, high blood pressure, elevated blood triglycerides)

SYPHILIS

SYSTEMIC INFECTION (Out-of-control yeast, protozoa, bacterial, viral, parasitic or other infestations)

T

TAPEWORM (Digestive system parasite that is about 1/4 inch wide and very long)

TARDIC DYSKINESIA (Uncoordinated involuntary movements precipitated by psychiatric medication)

TEETH PROBLEMS

TEMPORO-MANDIBULAR JOINT (“TMJ”) PROBLEMS

TENDON PROBLEMS

TESTICLE PROBLEMS

TESTOSTERONE PROBLEMS (Male hormone)

TETANUS; TETANY (Spasmodic contraction of the muscles)

THIGH PROBLEMS

THROAT PROBLEMS

THRUSH (Fungus in the mouth)

THYMUS GLAND PROBLEMS (“Master gland” of the immune system)

THYROID PROBLEMS (Neck gland that secretes life-vital substances)

“TICS” (Chronic uncontrollable movements, usually in the face)

TINNITUS [Loud ringing or other sounds in the ear(s)]

TOE PROBLEMS

TOE INTERSPACE PROBLEMS

TOE NAIL PROBLEMS

TONGUE PROBLEMS

TONSILLITIS

TORPOROUSNESS (Sluggishness, lethargy, amotivational)

TORSO PROBLEMS

TOURETTE SYNDROME (Sudden intense shouts and movement, often involving profanity)

TOXOPLASMOSIS (Virus that causes inflammation in targeted organs that is recurrent and degenerative. It is intensified by a compromised immune system.)

TRACHEA PROBLEMS

TRAUMATIC BRAIN INJURY (TBI) [Caused by having the brain bounce hard against the skull] (Persistent headaches, difficulty remembering, trouble concentrating, learning disability, feeling unusually tired, mood changes, ringing in the ears, confusion, irritability, dis-inhibition, exaggerated startle reactions, learning problems handling crowds, sometimes violent confrontations with people in more severe cases.)

“TRAVELER’S THROMBOSIS;” “ECONOMY CLASS SYNDROME” “DEEP VEIN THROMBOSIS” OR DVT. (Blood clots in the legs that can even become fatal while on a plane.)

TREMOR (Constant low-key shaking)

“TRENCH MOUTH” (Severe stress-precipitated intense gingivitis and infection of the gums) [It got its name from the outcomes of trench warfare in WWI.]

TRICHINOSIS (Fever, nausea, diarrhea and muscle pains from worms in pork. Often lethal)

TUBERCULOSIS

TUBEROUS SCLEROSIS (Degenerative connective tissue disorder)

TUMOR(S)

“TWITCHING” (Sudden involuntary gross motor movements)

TYPHOID FEVER (Severe fever, diarrhea)

TYPHUS FEVER (Fever, red eruptions, weakness, nervous disorders)

U

ULCERATED LARYNX (Backed up stomach acid burning the larynx)

ULCERATED SPOTS ON THE SKIN (Eroded holes, open sores)

ULCERATIVE COLITIS (Lining-damaging inflammation of the large intestine)

ULCERS

UMBILICAL HERNIA (Bulging inner organ through the belly button)

UNCONTROLLABLE RESPONSES FROM THE CENTRAL NERVOUS SYSTEM

UNCOORDINATED INVOLUNTARY MOVEMENTS

UNDER-ACTIVE ADRENALS

“UNDULANT FEVER” (Recurring fever, enlarged spleen, joint pains, sweating)

UREMIA (Poisoning from urinary substances in the blood)

URETHRA PROBLEMS; URINARY TRACT PROBLEMS

UTERUS PROBLEMS

V

VAGINAL PROBLEMS

“VALLEY FEVER” (Viral flu-like, frequently fatal disorder)

VEIN PROBLEMS

VENEREAL DISEASE

VERTIGO (Violent dizziness)

VIRAL INFECTION(S)

VISION PROBLEMS

VITILIGO (White patches on the skin, sometimes turning the whole body white)

W

WEEPING SKIN ERUPTIONS (Leaking lymphatic fluid)

WHOOPING COUGH (Intense gasping coughing, with a “whooping” sound in between coughing episodes)

“WORMS” (Parasitic)

Y

YAWS (Skin eruptions, destructive lesions of the skin and in the bones)

YEAST INFECTION (In the female sexual organs)

YEAST OVER-PRODUCTION (Leading to debilitation of the immune system)

YELLOW FEVER (Jaundice, fever, nausea, vomiting)
